WAGES MUST BE PAID.

Bricklayers Will Not Work Until

All Claims Are Settled. There was little change in the condition of affairs last night relative to the strike of the members of the Bricklayers' Union who had been at work on the new city postoffice. The men are still "out" and will refuse to go back to work until the wages due are paid in full. It is expected, however, that H. C. Weaver, a representative of the Camp Company, will arrive in the city this morning and adjust the difficulty. In case this is done the brickingers will re-

Summer

Summer

As stated in The Times of yesterday afternoon, the bricklayers who quit work in the morning were called out by the walking delegate of the Bricklayers' Union, not because of wages due them, but on account of the laws of the union, which prohibit the members from working on a job where other members have not been paid in full for their labor. The men who were called off yesterday by the walking delegate as sympathetic strikers, were employed by the H. D. Camp Company, who had received their wages in full on last Saturday.

Autumn, most sparkling d of the year, has ousted mer for once and all and has dy surcharged the atmostic with a biting chill that no

The trouble, it is stated, originated in the fact that the men who were employed by Hurdie & McCartney did not receive their wages on last Saturday.

Hurdle & McCartney are subcontractors on the brick work under the H. D. Camp Company and it is asserted that under the terms of their contract the money for the work is prorated so that the former may receive their share when paid by the Government.

Mr. A. Davis who was prior to September I the superintendent of the H. D. Camp Company in this city, stated to a reporter for The Times last evening that reporter for The Times last evening that he had resigned his position as superintendent at the Mine mentioned for the reason that Superintendent Stewart of the postoffice building was "arbitrary in his dealing with him." Mr. Davis said further: "A short time ago the supervising architect of the Treasury preferred charges with the Secretary of the Trensury against Stewart for incompetency, and Hurdle & McCartney were called before Hurdle & McCartney were called before

Camp Company had advanced money to Hurdle & McCartney when the latter were Hurdle & McCartney when the latter were unable to secure their money from the Treasury, and he stated further that many contractors had told him that Stewart was not competent to hold his present position. The H. D. Camp Company have their headquarters at Altman, O., and their headquarters at Altman, O., and the Washington, Woodside and Forest Hurdle & McCartney are local contractors, living in this city.

FOR FINAL DISPOSITION.

Settled in Court.

The case of A. M. Lawson and Stepher A. Clements, representing District Assembly No. 66, Knights of Labor, against enry A. Hicks and the other members of the general executive board of the Knights of Labor of America, will come ap this morning before Justice Cox for

nal disposition. inal disposition.

Brieffy, the cause of action is that some lime ago, for alleged violation of the laws of the order, the general executive bound no picture machine if the men agreed to revoked the charter of District Assembly No. 65, and through its officers it appealed to the courts to restrain the executive board from putting its order into effect. Since those proceedings were instituted the general executive board issued an or-der expelling Lawson, Clements and the other officers of District Assembly No. 66. and supplementary proceedings were filed asking that the general officers be en-joined from executing this order.

WEEKLY HEALTH REPORT.

Diseases Principally Prevalent Were Those of the Heart. The weekly bulletin of the Health De partment of the District, issued yesterday, shows that there were 112 deaths in the District during the past week, of which sixty were of whites and fifty-two

colored. sand of the whole population was 20.78, that for the whites being 16.29 and for the colored 30.40. The diseases principally prevalent were those of the heart, causing seventeen deaths, as against eleven in the week before, and diarrheals, causing seven, as compared with thirteen.

There was a decline in diseases of the nervous system from sixteen, by the last report, to fourteen, and or consumption from nine to seven. In the zymotic class there were two fatal cases of diphtheria and six of typhoid fever, three of which were cases of soldiers from the

army barracks of this city. At the close of last report there were forty-three cases of dipatheria under treatment. During the week seventeen local new cases occurred and thirteen were relieved from quarantine by recovery, leav-

DOESIT CURE CATARRH?

One of the Seventeen Thousand Testimonials Received.

Boston, Mass., April 20,
Care of Jordan, Marsh & Co.
Dear Sir—I had Catarrh for twenty years, and
the last ten years (all of which time has been
passed in this great establishment) I suffered fearfully. It extended to my throat; the base of my
tongue was badly affected. I constantly kept in
my mouth cardamon seeds, or some such breath
purifier. I could not sleep with my mouth
closed. I began using "Hyomei" in December,
1853, and in two weeks I was entirely relievedand now, after four months and no return of the
disease, can say, permanently—cured. I am
going to ask the head of this firm, Mr. Eben
D. Jordan, to indorse this statement.
